I Belong to You

By: Amanda Cook

Intro: F# B G#m D#m F# B G#m

Verse 1

```
     F#                    B        G#m
Your love has won my heart forever
        D#m        F#             B
Not because of anything I've done
      F#                    B            G#m
But You have scaled the hills and mountains
         D#m           F#                 B      C#
Just to search and find the one You love
```

Chorus

```
 F#              D#m                C#
  I belong to You, I belong to You
                  B         C#
  I belong to You, forever Yours
```

Verse 2

```
     F#                                B        G#m
And when I was drowning in my doubt
       D#m           F#                B        G#m
Your mighty right hand lifted me out
         F#                      F#/A#  B       G#m
And now we are walking on the water
                D#m    F#                B       C#
'Cause you lift my head above the crowd
```

Verse 3

```
     F#            B              G#m
And when this life is over
         D#m      F#                  B      G#m
And I stand to see You face to face
            F#                          B       G#m
There's nothing that I will have wanted
         D#m           F#
But to be with the One
     B            C#
I belong to always
```
